

Facilities

Meadowlands	Wharf	Sport	Arts
Sauna in the meadowlands gym in the pool area, it's great for health.	The Wharf is a lovely venue but needs some updating of seats to help increase cinema goers.	Padel Courts	More creative arts facilities
I think the gym could be better run by Fusion's head office. It's a great gym but not run well.	I'd love to see the Wharf Supported- for example to have a warmer more comfortable cinema space.	Facilities to provide greater access to yoga, pilates etc	A really good arts centre and gallery space.
Bigger gyms, studio classes, sauna all on one site.	The wharf feels like a wasted resource, I'd love to see it with a lush cafe and some more variety of gigs/ cinema/ theatre etc.	upgraded skateboard park/bmx track	Art space
Spa therapies, sauna, steam rooms	I think an improvement to The Wharf for example. It's such a lovely venue, it just needs a bit of a facelift, to modernise it and attract a variety of age ranges.	Bigger clubhouse with diverse changing rooms	Art Hub
better changing facilities at leisure centre	More comfortable seats at the wharf, greater variety of options for entertainment, eg comedy, more original music or artists (similar to calstock & Ashburton art centres).	Improved indoor sports hall, council maintained municipal pitches	art venue
Continual upgrading of Meadowlands	A properly equipped space used for cinema, theatre and arts. The Wharf tries, but the seating is uncomfortable/ temporary and the sound system is poor.	Better skate park - for younger family members	More for Art, music, drama
Having the sports centre back open outside of term time would enable so many more clubs for adults too. I used to play badminton and fence - neither of these clubs take place any more.	Better music and theatre venue.	Support for the cricket clubs with greater access to indoor space at a reduced cost	An arts maker space and gallery and community centr
Better and bigger gyms	Wharf is great for films etc.	An improved re-vamped skate park.	
Cheaper prices and classes to help us all stay fit.	Better music and theatre venue.	Additional floodlit training facilities	
Proper leisure centre - the gym is too small - needs a crèche etc	I think The Wharf community centre could be used a lot more in the day time for creative groups/workshops. There is a really good upstairs space, great for exhibitions and small workshops. If they had more volunteers and help this could become a really thriving space in the daytime as well as at night when they have bands and films.	Club house/changing rooms for hockey club Improved maintenance of athletics track	
Facilities for exercise dance such as improved swimming pool especially for less able swimmers	Better variety at the Wharf and upgrade facilities	Additional 3g pitches	
Play area at Meadowlands is poor and flooded and muddy	the inside of the Wharf needs improvement, more quality events to draw us in	Provide funding for extension to Bowls club to provide better facilities.	Art centre
Earlier and later opening at meadowlands	Sound at the wharf improved for music events.	Floodlights on Bowls green to encourage more people to play.	Arts facility
Leisure pool poor quality and very limited access to kelly pool which is poor considering lottery money was used to fund it.		Cricket club refurbishment.	Community art centre
A good health centre, meadowlands has very limited facilities small gym and terrible pool, currently travel to ivy Bridge to use mccauly's. swimming pool sauna steam room jacuzzi. Meadowlands does nothing properly small gym and dated pool. Also better facilities in park, once again yelverton has much better play areas like decent free basketball court and football pitch. Okehampton has a much better park. all these things we could look at and improve in tavistock, to get competitive with our neighbouring towns and villages which are much better run. Meadowland trys to cover everything yet does nothing well,		A yoga hub.	development of art facilities in Tavistock - particularly space to make and exhibit art work
		More / improved skate park facilities.	Art facilities for community use
		Skate/wheeled sport park.	More facilities to make & exhibit art
		Pump track to attract a different type of Cyclist and encourage more active travel in the area.	An art centre, catering for all modalities several spaces so equipment can be left and also exhibits. This would be an additional benefit of attracting visitors.
		improved skate park for that group as the facility is dated.	more and improved arts and cultural facilities, including for art, performing art and music
		Increased capacity for Rugby due to the loss of a field this year.	I'd love to see more space for arts and cultural events especially for people who cannot afford to pay a lot - a literary festival with authors visiting would be fab!

		seperate female cahnging at all footbal, rugby and cricket clubs.	Art centres.
		Renewal of the track surface at the athletics track following vandalism.	Musicians encouraged in and around the town hall.
		More sports facilities including outdoor sports.	More creative arts facilities
		More sport facilities	space somewhere - existing or new - for art centre
		Another 3g pitch	Dedicated Art Venue
		Funding to improve the club to support youth clubs and youth teams	Arts & Craft venue
		access to carparking for bowls club enabling more use by visitors, social activities and disabled players/visitors	Art centre
		Speedway Track	An Art centre. The printworks/Butchers hall are good, but no place for longer term exhibitions
		The skate park area for teenagers could also be modernised and improved.	More workshop classes and workshop spaces, art supplies available
		New nets at cricket club	Art & craft facilities
		It would be good to see more central facilities for games, such as goal posts for football .	Arts workshop
		Tavistock community football club need a 3g to accommodate the vast amount of village football clubs, as there is only one facility and this is always booked out to demand. We all need this to help the various clubs to have suitable facilities to help the various communities.	Arts centre/workshop/gallery
		More 3G style pitches available. Our football club struggles to get slots for our teams. They could build one near crowndale where the main football club is.	Arts centre with exhibition space
		Artificial grass pitches for junior football.	art centre
		Small Play parks/areas for ball games and basket ball hoop facilities included in the newly built estates	Arts Centre
		Another 3G facility due to the two places we have always being fully booked.	Art facilities to make and exhibit art.
		Basketball court	Dance venues
		Street cricket	Art Centre. Exhibition and classroom space
		Improved skate park	I would like to see an Art Centre or art facilities for demonstrations or disply
		New rubber on the track, new nets at the cricket club, financial support to enable more kids to learn to swim	Community art gallery for local amateur artists
		Better access to affordable sports hall hire, both the School and MK sports halls are very busy and not cheap to hire	A place for arts and crafts workshops and exhibitions
		I would really like to see a new 3g/4g artificial football pitch. This would give the young people a place to go , have fun and exercise. Currently we can't use our football pitches in the winter evenings due to the light	Art centre

		I would like to see the Football Clubs, Athletic Club and Hockey Club come together and share social facilities and possibly improved changing facilities for both men and women. Tavistock AFC could be a venue for an expanded facility. Tavistock AFC are looking to grow and improve their facility for both men and women. Feedback from other Clubs may point to Changing facility, post event social meeting place.	An arts centre would be good
		Better basketball hoops/nets. Larger concrete area to play full court. All weather cricket pitches/practice areas	Art centre including art studios for public use.
		No disabled parking near Bowls club, the club needs to be included	Art centre to do and to display art
		Longer public opening at Mt Kelly pool	art centre
		Additional 3G pitch. Currently there is not one. The school have one but this is always fully booked. Most sports clubs suffer in the winter and training is regularly cancelled because there are only grass pitches not all weather pitches. Most young athletes then suffer and miss out on a lot of sport	art centre
		Better skate park	More art facilities, for example displaying work
		New skate park	Art facilities
		Update of skatepark	An affordable dedicated Arts facility
		Further Development of the football club. 3 g pitch and Crowndale arena. I E, secure fencing of Langford Park and the Crowndale arena. Far too much vandalism. Secure these areas, no public access. Athletics, update the track. I am unaware about other sporting clubs. No doubt you will get their views.	Dedicated community arts space: wharf is too commercial and so narrow. Exhibition space, making spaces, singing, digital arts, etc
		Cycle renting	More art and adult education classes.
		I feel that due to large number of local villages in the area Tavistock could do any other 3G football facility. I feel that sport plays a major part in keeping the youth occupied so a public golf driving range, cycling facilities (bmx and road) and a basketball court are a few of the things I feel Tavistock would benefit from	more for art works, printmaking etc. gallery for local people
		Promoted Park run	Specific arts space. Open to all. Workshops put on by individuals/groups to share skills in a friendly environment.
		Horse riding routes	A community hub perhaps owned and run by the community
		More cycle lanes	More art and culture events , a community hub/space.
		Facilities always need upgrading and maintenance. It would be great if the fields next to Tavistock FC could incorporate another sport and link up with the College. Local sports clubs need to interact with the College and provide after school coaching. It would also be great if for a one off fee Tavistock based families could buy a Tavistock Sports Membership giving members access to clubs in town but in particular access to children and young adults to try different sports. A centralise membership would help to provide opportunity and enhance communication.	Art centre etc
			Arts and crafts centre
			arts centre
			I'd like to see an arts centre. For making art and for exhibitions. Perhaps with artists studios in
			Enhanced art facilities to undertake classes and display artwork.
			A dedicated space for participating in and learning about various art forms, and an exhibition space for art.
			Better provision for arts, longer opening hours for library, more activities on weekends, multifunction spaces cheaply accessible for all
			Recreational art facilities, maybe with a cafe? Some of the existing things just need to be advertised better so people are aware of them. Emphasis on multigenerational places would be good too.
			More, and more affordable, classes at the Printworks.

			permanent space the the arts so artists could use the facilities and display their work.
			Better space for art projects.
			more affordable classes arts & crafts
			Easy access art space
			A place for local art exhibitions. I run an art group and other than a stall in Butchers Hall there is little else. We organised the Robing Room last year at the Guildhall but were told the day before we couldn't go ahead as the hanging facilities were not in place.
			The community in Tavistock and its surrounding area needs and deserves a properly-equipped, dedicated centre for theatre and other performing arts, both for local voluntary groups and visiting professional performers. There is a lot of interest in participation in this town - two children's theatre groups, Tavistock Musical Theatre Company, Tavistock College Music and Drama departments, many choirs and instrumentalists, and theatre groups in nearby villages and towns. Wouldn't it be great to have a thriving, vibrant true Arts Centre for all these groups, sharing, encouraging, developing, learning, creating, inspiring, entertaining and experiencing all the benefits of working together on exciting projects, for everyone to come and enjoy? The obvious place for all this to happen already exists!! It's near the bus station, with a car-park and a café and a supportive Friends group - yes, The Wharf!!!! It needs new, enthusiastic management as a community enterprise (not a private business), a properly-funded and thorough renovation, and genuine long-term support as a priority by the local authorities. Let's do it - as soon as possible - please!!!
			More funding towards potential music events in the park, or in the square with big acts
			A space for arts which would be large enough and central enough to engage with more of our community. An arts space that would allow exhibitions and residencies, and would offer affordable creative opportunities for people to make art, make new friends and connections, develop networks of support, as well as new skills. An outreach worker to do the development work to ensure that the people who need it most access the affordable opportunities. We definitely need a space for live music which is original and not just tribute bands. They definitely have their place, but there are so many talented bands/musicians around (even locally). I would also like to see an effective engagement strategy which would target and encourage those who are most disengaged in our area to try out/join in with opportunities. This again would require dedicated outreach work to enable disadvantaged people in our community feel that this town really does offer something for them: ie listening to and responding to their expressed needs in this context. You know, the sort of people who won't be responding to this survey, however well-intentioned it is ... I am very happy that you are asking people these questions. It's important that responses are taken seriously and acted upon where there is funding to do so. I understand that times are incredibly challenging at the moment. Good luck and well done for opening up the conversation :)

Youth	Meadows
improvements to the skate park and bannawell st play areas	The Park needs to have more monitoring to keep it safe for children and the elderly, from dogs off the lead and some vandalism.
Play areas need to be upgraded, bike pump track maintained	Better play equipment for younger children.
more facilities for older teens after school	The meadows area needs updating. Playparks have come on a lot and could be better, to include more challenging play equipment, an area for toddlers to use balance bikes, scooters etc, also a splash pad for the summer months would be great and draw more families into the town.
Everything is a bit tired and needs updating. All play areas, skate park, bike track and swimming pool	The park maybe used for musical events.
More affordable adolescent areas	Update on equipment say the exercise equipment around the park edge.
More aimed at teenagers, eg improved skatepark	More picnic benches and covered areas for families to enjoy the park in the summer months would be good.
Somewhere for older children to spend time of an evening.	More seating in the meadows.
Providing more places for the young to get off the streets. Youth clubs, etc.	The outdoor gym around meadowlands should be kept safe to use
I think it would be nice to see more happening over the winter months for the children	Tavistock born but I no longer feel safe in the meadows to walk once the college teenagers are let lose.
More for young people	
More facilities for young people	
better quality facilities for children and young people	
Skatepark More for Teenagers.	
Additional recreational facilities for young people - bowling alley, regular music events for younger people in the town centre.	
places for young people to gather in the evenings, that is alcohol free.	
MacDonald's for the youngsters. They need a place in town to gather that is fashionable and cheap food and drinks. All towns that have them are heaving with youngsters . Everywhere else is either not cool or too expensive for them.	
More youth activities to prevent antisocial behaviour.	
More focus on the needs and interests of the young from babyhood through to early days of parenthood.	
More for teenagers and elderly	
More for younger people, skate park update etc
